Project summary statement:

Pegasus the Bookmobile, a Model AA Ford, served the Library for 20 years. After ending its service in 1950, the Pegasus was sold at auction and saw various uses around Snohomish County over the years. It was re-discovered in 1992, when Rotary Club of Everett purchased it and a new set of tires. Volunteers and donors restored Pegasus and donated it to the City, with the intent that Pegasus be available for future generations.

The purchasing manager reports that the value of Bookmobile is approximately \$30,000-\$40,000 based on an appraisal completed by the museum. This value was created by the contributions of the volunteers and donors, not City funds.

Maintenance and storage of Pegasus is a drain on City resources. There is concern that Pegasus may begin to deteriorate. However, the Everett History Museum has agreed to display indoors and maintain Pegasus. This is a win-win as it both relieves the City of expenses and honors the intent of those who donated Pegasus.

The attached resolution declares Pegasus surplus and authorizes a 20-year loan to the Museum. The City will retain title for Pegasus. The resolution includes a loan agreement, which requires the Museum to insure and maintain Pegasus in the same manner as the rest of the Museum. The agreement gives the City the option to require return of Pegasus to the City if the Museum breaches the loan agreement, Pegasus is not displayed, or the Museum closes.

Recommendation (exact action requested of Council):

Adopt a Resolution declaring Pegasus the Bookmobile surplus and authorizing its long-term loan to the Everett History Museum

RESOLUTION NO. _____

A RESOLUTION declaring the Pegasus the Bookmobile surplus and authorizing its long-term loan to the Everett History Museum

Whereas,

- A. For 90 years the bookmobile was an important tool used by the Everett Public Library to deliver a wide range of services. This vital work began with a Model T Ford in 1924 – a time of economic uncertainty within the region. The first Everett Public Library bookmobile was named Pegasus. Local historians believe that the name was a reference to Christopher Morley’s book Parnassus on Wheels, which included a mobile bookstore..
- B. Pegasus was later upgraded to a Model AA Ford, which served the Library faithfully for 20 years. After ending its service in 1950, the second Pegasus model was sold at auction and saw various uses around Snohomish County over the years. She was re-discovered in 1992, when Rotary Club of Everett purchased her and a new set of tires.
- C. A years-long restoration process ensued, involving the generous donation of funds, labor, and mechanical skill of many members of Everett’s community. Eventually ‘Peggy’ was able to ride again, and became a fixture in local parades.
- D. The City holds title to Pegasus the Bookmobile. However, the City recognizes that Peggy was donated to the City with the intent that the Bookmobile be available for future generations. Accordingly, the City, at least informally, views its role with respect to the Bookmobile as more akin to a trustee than an outright owner.
- E. The monetary value of Bookmobile has been estimated at \$30,000-\$40,000. This value was created by volunteer labor and donations, not by City funds.
- F. The City does not have the resources to continue to store and maintain the Bookmobile. Because of this, the work of volunteers and donors may be jeopardized.

- G. Keeping in mind the intent of those who donated the Bookmobile and the drain on City resources that the Bookmobile has become, the City has determined to loan the bookmobile to Everett History Museum. The loan agreement is attached to this resolution. The length of loan is 20 years, but the City may require return of the Bookmobile under certain conditions specified in the agreement. Under the provisions of the loan, the Museum will display and maintain the Bookmobile for the Everett community.
- H. Chapter 3.88 of the Everett Municipal Code (EMC) establishes a procedure and methods for surplus or disposition of City-owned personal property. Because the Bookmobile was donated to the City, it is not completely clear that Chapter 3.88 EMC directly applies. However, the City will nevertheless apply Chapter 3.88 EMC as a vehicle for approving the loan agreement.
- I. Based on the guidelines set forth in EMC 3.88.020, loan of the Bookmobile to the Museum is the disposition method that best meets the City's interests and follows the intent of the Bookmobile donors and volunteers, all of which is in accordance with the general welfare of the citizens of the City.
- J. The City's purchasing manager has reported the basis for the estimated value of the Bookmobile and has recommended to surplus the Bookmobile by long-term loan to the Museum.

NOW, THEREFORE, BE IT RESOLVED THAT:

- 1. The Bookmobile no longer of value or use to the City.
- 2. The long-term loan of the Bookmobile to the Everett History Museum by loan agreement substantially in the form attached to this resolution is hereby authorized.

Councilmember introducing resolution

Passed and approved this ____ day of _____, 2019.

Council President

BOOKMOBILE LOAN AGREEMENT

This Agreement is by and between the City of Everett, a municipal corporation of the State of Washington ("**City**") and the Everett Museum of History ("**Museum**"). This Agreement is dated for reference purposes August 1, 2019.

RECITALS

A. In 1924, the Everett Public Library invested in a Model T Ford truck modified to serve as a "book wagon." It was the first "bookmobile" in Washington State, and it was given the name "Pegasus." Local historians believe that the name was a reference to Christopher Morley's book *Parnassus on Wheels*, which included a mobile bookstore.

B. The bookmobile was later upgraded to a Model AA Ford, which served the Library faithfully for 20 years. After ending its service in 1950, the bookmobile was sold at auction and saw various uses around Snohomish County.

C. The bookmobile was re-discovered in 1992. A years-long restoration process ensued, involving the generous donation of funds, labor, and mechanical skill of many members of Everett's community. Eventually, the bookmobile was able to ride again, and became a fixture in local parades.

D. In this Agreement, the restored Model AA bookmobile is referred to as "**Pegasus**." The City does not have the budget to display Pegasus. However, the City wants Pegasus to remain part of the Everett Community for future generations to enjoy. The Museum desires to add Pegasus to its museum collection and to display Pegasus. Accordingly, the purpose of this Agreement is to formalize a long-term loan of Pegasus from the City to the Museum for indoor display purposes.

AGREEMENT

The parties agree as follows:

1. PEGASUS LOAN

Subject to the terms and conditions of this Agreement, the City agrees to loan Pegasus to the Museum (the "**Loan**").

2. TERM

This Agreement is effective when both parties have signed it. The term of the Loan begins when the Museum picks up Pegasus from the City and expires on August 1, 2039, if not terminated sooner as set forth in this Agreement.

3. DISPLAY

The Museum will display Pegasus indoors within the City limits of the City of Everett or at the Paine Field Passenger terminal. Other display locations require prior written approval from the Library Director, and this approval may withheld at the Director's sole discretion.

4. DELIVERY

The Museum is responsible for moving Pegasus from its current City location to the display location and to any subsequent Museum display locations.

5. STANDARD OF CARE

The Museum shall take care of Pegasus as it would any similar Museum property.

6. REPRODUCTION RIGHTS

The City authorizes and licenses the Museum to reproduce and publish the image of Pegasus in any medium for the purpose of publicizing Pegasus, the Museum or Museum programs.

7. AS-IS CONDITION

- A. The City loans Pegasus to the Museum AS IS, WHERE IS, and WITH ALL FAULTS. The City expressly disclaims and makes NO EXPRESS WARRANTIES, NO IMPLIED WARRANTIES and NO GUARANTEES of any kind whatsoever regarding Pegasus. The City makes no representations whatsoever that Pegasus is safe or that the Pegasus is in any particular condition.
- B. The Museum is 100% RESPONSIBLE for determining the condition of Pegasus and for determining whether Pegasus is safe and suitable for use by the Museum. The Museum is 100% RESPONSIBLE for the design and safety of any exhibit or display of Pegasus.

8. NO OPERATION OF PEGASUS AS A MOTOR VEHICLE

- A. The Museum shall not operate Pegasus as a motor vehicle without the prior written approval of the City's Risk Manager, which will not be unreasonably withheld. The Museum understands that, among the instances that the City's Risk Manager may reasonably withhold approval, the City Risk Manager may withhold approval if Pegasus is not insured for operation as motor vehicle in a manner consistent with the City's other motor vehicles or if the procurement of such insurance will impose cost on the City.

- B. If the City desires that Pegasus be maintained as an operational motor vehicle, then, unless the Library Director and an authorized representative of the Museum agree otherwise in writing, any mechanical maintenance necessary for that purpose is the sole responsibility of the City. The Museum will provide the City reasonable access to perform such maintenance upon request.

9. ALTERATIONS

The Museum will not make permanent alterations to Pegasus without the prior written approval of the Library Director, which will not be unreasonably withheld.

10. INSURANCE

If the City desires that the Museum carry insurance on Pegasus and gives written notice thereof to the Museum, then the Museum shall use commercially reasonable efforts to insure Pegasus for its fair market value and shall maintain such insurance until the end of the term or until the City gives notice that insurance is no longer required. If procuring and maintaining such insurance for Pegasus increases the cost of the Museum's insurance premiums beyond what the Museum's premiums would be without Pegasus, then the City must promptly reimburse the Museum for such increase.

11. LIABILITY FOR PERSONAL INJURIES

The Museum WAIVES AND RELEASES the City and shall INDEMNIFY AND DEFEND AND HOLD THE CITY HOLD HARMLESS from any and all claims, known or unknown, foreseen or unforeseen, that the Museum now has or that may subsequently accrue to the Museum, arising out of or relating personal injuries caused by Pegasus during the term of the Loan. This section 11 survives termination or expiration of the Loan and this Agreement.

12. LIABILITY FOR LOSS OR DAMAGE TO PEGASUS

The City agrees that, in the event of loss or damage to Pegasus (including without limitation loss or damage caused by Museum violation of the standard of care in Section 5, loss or damage caused by Museum personnel, loss or damage caused by members of public, or loss or damage caused by fire or earthquake or any other peril), recovery by the City shall be limited to such amount, if any, as may be paid by an insurer, thereby releasing the Museum, and the officers, agents and employees of the Museum from liability for any and all claims arising out of such loss or damage.

13. TERMINATION OF AGREEMENT

This Agreement may be terminated as follows:

- A. In the event of a breach of this Agreement, the non-breaching party may give the

breaching party notice of such breach. If the breach is not cured within 90 days after the delivery of the notice, then the non-breaching party may provide notice of termination, in which case the Museum shall promptly return Pegasus to the City, and this Agreement and the Loan expire upon such return.

- B. The Museum may terminate this Agreement for any reason or no reason by delivering one year's prior written notice that it will return Pegasus to the City. This Agreement and the Loan expire upon such return.
- C. If the Museum is no longer publically displaying Pegasus, then the City may terminate this Agreement by delivery of written notice to the Museum, in which case the Museum shall promptly return Pegasus to the City, and this Agreement and Loan expire upon such return.
- D. If the Museum closes or is otherwise not a going concern, the Museum shall promptly return Pegasus to the City, and this Agreement and Loan expire upon such return.

14. NO TRANSFER OR ASSIGNMENT

Since the Museum is receiving Pegasus as a loan, the Museum shall not sell, loan, transfer title to, or grant a security interest in Pegasus without the prior written approval of the Library Director, and this approval may withheld at the Director's sole discretion. Neither party may assign this Agreement.

15. NOTICE ADDRESSES

Notices to the City shall be sent to the following address:

City of Everett
Attn.: Everett Public Library Director
2702 Hoyt Ave
Everett, WA 98201

Notices to the Museum shall be sent to the following address:

Everett Museum of History
Attn: Museum Director

Everett, WA 98201

16. MISCELLANEOUS

This Agreement is the complete agreement of the parties regarding Pegasus and supersedes all other agreements, oral and written. No amendment of this Agreement is effective unless in writing and signed by the Mayor of the City of Everett and an authorized representative of the

Museum. Exclusive venue for any lawsuit arising from or relating to this Agreement is Snohomish County Superior Court.

VEHICLE APPRAISALS ●
INSURANCE, FINANCIAL & LEGAL ●
PRE-PURCHASE INSPECTIONS ●

With over 40 years in the old car hobby, covering all aspects of the automotive restoration business, John Kincl has become a knowledgeable professional that can provide a variety of services. Having acquired and developed an extensive automotive research reference library, he has information for a wide range of vehicles.

Will Travel - Flat Fee

● Appraisals

John covers and is knowledgeable on Antiques, Modern Collectibles, Classics, Special Interest Vehicles, Sports Cars, Street Rods, Customs, Trucks, and Low Riders. Auto Ideas is available to perform financial, insurance and legal vehicle appraisals and is recognized by all of the leading insurance companies, banks & lending institutions. Expert witness in superior courts. Dealing with insurance companies on total loss values as well as diminished value claims.

● Pre-Purchase Inspections

If you are buying a vehicle, or thinking of buying a vehicle, John Kincl can appraise and investigate the vehicle and deal specifics to ensure you aren't paying too much. Get an accurate and professional pre-purchase inspection that identifies the good, the bad and the ugly points of your dream car. Ensure you are paying a fair price and know exactly what you're buying by having a pre-purchase inspection performed. John Kincl will inspect the vehicle thoroughly, looking for the obvious problems as well as those hidden things that only years of experience can find. Pictures and written reports provided.

● Restoration Consultant

Restoring a vehicle to its original glory or building a streetrod or custom, can't find parts or need to know what parts you need? These are all questions John Kincl can answer having over 40 years of experience as a hands on restorer and streetrod builder. If you're building or restoring a vehicle and want to ensure the quality, timeliness and that budget constraints are met, John can act as a general consultant to ensure your dream machine is built the way it should be.

Engine Size	40BHP
Transmission	3-SPEED MANUAL

Description

Lot #783 - This 1928 Ford Model AA Cretors Popcorn Truck re-creation is finished in authentic colors: red and white for the body, black for the fenders, and yellow powder-coating paint for the wire wheels. The red finish hosts yellow hand-painted detailing on body and black accents on window frames. The paint is very presentable with minor imperfections in surface texture, dents and scratches. Wisconsin northern red oak shelves, window frames and flooring give a sense of yesteryear quality. The 1928 original Model A Ford 4-cylinder engine with a rare 3-speed worm drive train, clutch, gears and brakes were all rebuilt using new or OEM parts. The engine is painted Ford green, with the undercarriage painted with black epoxy and mechanical parts with black powder-coating. The interior and exterior of the body feature decorative beveled glass windows, with three foldout serving windows. Decorative blue flash glass signs are inset in front, back and sides at the top of the oak window frames. Both the entrance door to the interior and rear door to access the storage area are made of oak. The all metal decorative trim pieces are solid brass with nickel plating. The wheel lug nuts are also plated in nickel. The vending section features a new 16-ounce Gold Medal popper with exhaust fan and heat lamp with a stainless-steel hopper to hold large

amounts of popcorn. There is even a fully functional peanut roaster with propane burner and motor. A hard-piped steam whistle sounds when pressurized air is applied. It has an electrified replica Cretors steam engine and "Roasty-Toasty" clown peanut tumbler mounted in the front and back windows. Red and white awnings extend from both sides with light fixtures for illumination. The interior also has two authentic green shade fixtures with dual-bulb sockets for plenty of light at night. The tires are in great condition. The truck drives and starts as well as any truck from its era.

Engine Size	200.4CI
Transmission	4-SPEED MANUAL

Description

Lot #730 - This 1930 Ford Model AA 1-1/2-ton ice truck represents a piece of automotive and Ford history. Powered by a 200.4ci L-head 4-cylinder engine backed by a 4-speed manual transmission. Built in August 1930, this truck has the updated commercial cab that was introduced in June of that year, as well as the dual rear wheels using 20" balloon tires on Budd rims. This truck features a solid front axle with transverse semi-elliptical leaf spring, live rear axle with cantilever leaf springs, and 4-wheel mechanical drum brakes. This Model AA is a two-time Grand National award winner, and recognized AACA National First Prize winner. It received the AACA Grand National First Prize in 1995 with radiator plaques to prove, and AACA National First Prize in 1994, both with subsequent Senior honors. A complete body-off restoration was performed and the truck runs and drives well, having travelled less than 250 miles since its completion. It's been kept in a large and prominent collection and stored in a climate-controlled environment. **TITLE IN TRANSIT**

Description

Lot #2091 - This 1931 Ford Model AA postal delivery truck is one of the AAs delivered to the Minneapolis Post Office in 1931 and was put into service in early '32 for regional, inter-office transport of large loads. It was cosmetically and mechanically restored and rebuilt from the ground up. The chassis and all mechanicals were completely torn apart with all new bearings, braces, gears, seals, gaskets, springs, fasteners, joints, etc., installed as needed, and the engine, transmission and rear end were all treated to full rebuilds. The meticulously reproduced wood cargo box is a work of art, built to the original 200 cubic foot specification as fitted to this long-chassis AA when it was new. The top-grade oak and poplar woods were handpicked from a specialty hardwood lumber supplier, and all pieces were planed to the proper depth and length using the fastidiously dismantled, tagged and labeled original pieces as benchmarks along with original Post Office drawings to ensure supreme accuracy. Correct U.S. Military Olive Green as dictated by the Post Office Department with the Ford bodywork finished standard "any color you want as long as it's black." The build was a 3-year, no-expense-spared labor of love carried out by Buffalo Restorations in Puyallup, WA, with hundreds of hours put in.
